EDUCATION

B.S. / Information Systems and Technologies
BSTU named after V.G.Shukhov
Belgorod, Russia
September 2017 - June 2021
GPA: 3.89 / 4

SKILLS

Languages: Russian (Native),
English (Advanced – C1)

Frontend: Vue.js, Nuxt.js, TypeScript,
JavaScript, HTML, CSS

Backend: PHP (Laravel, Phalcon),
Node.js (Express), Go (Gin)

Database: PostgreSQL, MySQL,
MariaDB, SQLite, MongoDB, Redis,
Memcached, Clickhouse,
Elasticsearch

DevOps: Docker, Podman,
Kubernetes, Git, Github/Gitlab,
CI/CD, Nginx, Dante (SOCKS),
Synapse (Matrix), Coturn (Turn),
Outline, KrakenD, MinIO, Graylog,
Bash, Linux, Linux Security

Other: REST API, SOAP, KISS, DRY,
SRP, Saga, PSR, YAGNI,
Microservices, Service-Repository
pattern, Multi-Tenancy Architecture
(Tenant Systems), SaaS, Box
Systems, Real-Time Applications,
WebSockets

EXPERIENCE

✓ IT Test – Fullstack Developer

July 2024 – Present

Corporate website (<https://ittest.ru>) and tenant-based TMS development (<https://doqa.app>): admin panel implementation, SEO/caching optimization, acquiring integration for license payments, Pixel Perfect layout, PHPDoc/Swagger documentation, and third-party service integration.

✓ QSOFT – PHP Developer

August 2022 – July 2024 (2 years)

Architectural transformation from monolith to microservices using Saga pattern and service-repository design, implementation of OOP/MVC/PSR principles with YAGNI/DRY/KISS methodologies, integration of critical third-party systems (1C, Mindbox, MTS, Megafon, Firebase), and maintenance of code quality through PHPDoc/Swagger documentation, comprehensive testing, and bug resolution for an e-pharmacy platform (<https://aptekiplus.ru>).

✓ Planet of Travel and Entertainment – Web Developer

September 2021 — August 2022 (1 year)

End-to-end corporate website development: architecture design, responsive UI/UX, admin panel implementation, SEO configuration (<https://planetapr.su>).

KEY POINTS

- **Responsibility & Reliability**: Capability to work during non-standard hours to ensure uninterrupted project operations.
- **Attention to Detail**: Systematic approach to task analysis, including multi-angle evaluation and proactive identification of potential issues to enhance overall quality.
- **Team Spirit**: Proven ability to provide peer support and contribute to collective success.
- **Perseverance**: Demonstrated capacity to maintain productivity and focus under challenging conditions.
- **Initiative**: Initiative in optimizing workflows, implementing innovative solutions, and motivating team members.
- **Optimism & Resilience**: Ability to maintain focus on critical objectives despite external challenges and uncertainties.
- **Curiosity & Learning**: Commitment to self-improvement and exploration of emerging technologies.
- **Technical engagemen**: Hands-on experience in website and server management, including optimization, experimentation, and resolution of complex technical issues.
